EDUCATION

Erode Sengunthar Engineering College

Bachelor of Technology - Information Technology (CGPA: 7.9/10)

Erode

Oct. 2021 – Apr. 2025

EXPERIENCE

Software Developer Trainee

Frigate Engineering Services Pvt Ltd

Mar. 2025 – Present

Trichy

- Built a real-time web application using Next.js and Spring Boot
- Developed full-stack features and integrated frontend and backend systems with MongoDB and REST APIs
- Used Git, GitHub, and Docker for version control, collaboration, and containerization
- Served as the Single Point of Contact (SPOC) for the team, managing communication, distributing tasks, and jointly handling development and testing activities

Intern - Web Development

Institute of Training Trains

May 2023

- Worked on frontend development using HTML, CSS, and JavaScript to build interactive web pages
- Gained practical exposure to responsive design and basic project workflows

PROJECTS

FAQs Management System | Next.js, Spring Boot, MongoDB, Docker

Mar. 2025 – Jun. 2025

- Developed a full-stack real-time FAQs management application for internal company use
- Implemented RESTful APIs with Spring Boot and integrated them with a dynamic Next.js frontend
- Designed and managed MongoDB database schemas for storing FAQs and user interactions
- Used Docker for containerization and Git/GitHub for version control and collaboration

Healthlink Pro | MERN Stack (MongoDB, Express.js, React, Node.js)

Academic Project, 2025

- Developed a full-stack healthcare management web application using the MERN stack
- Implemented secure authentication, appointment booking, and patient record management
- Built responsive React frontend with RESTful APIs served by Express.js and Node.js backend
- Integrated MongoDB for storing patient data, doctor details, and appointment schedules

CERTIFICATIONS
